After

LIFE CYCLE MANAGEMENT

Training Maximizes Productivity, Speeds Set-Up

Preventative Maintenance (PM)

- Replacing worn components before they fail
- Maximizes system performance
- Reduces cost of replacement
- Ensures peak part quality
- Decreases system downtime
- Protects your investment

The PM Program can be set up either by system cycles or by scheduled PM

LIFE CYCLE MANAGEMENT

Cost-Effective Refurbishments and Repairs

Refurbishments

- Cost savings of at least 40% as compared to new systems
- Extended life of your tool
- Maximizing system uptime and performance

Whether you need a total system rebuild, or a simple cleaning and inspection DME can help. System rebuilds can be performed on **any** hot runner system and typically include:

- Complete bake-out cleaning
- Check and replace heaters and thermocouples
- Inspect and correct wiring
- Replace seals, bushings and other wear items
- Clean or replace nozzle components
- Check and validate all dimensions before re-assembling the system

Repairs

Time is money. When a critical tool is out of commission, productivity is lost and production schedules can be threatened. We understand this at DME. That's why our team of hot runner technical specialists are always available to get you back in service.

Whether you're experiencing leaks, heating issues, flow problems, or would simply like a system bake-out, we'll repair your system quickly and cost-effectively.

Turnaround for system repairs vary due to available replacement parts and work is performed in the order systems are booked. **Contact the Hot Runner Service Center for a quote and leadtime on your repair.**

Custom Hot Runner System Evaluations

Unable to get parts or repairs via the manufacturer? DME may be able to rebuild new from "manifold to tips" and have you making parts again. Custom manifold and components are made to fit the existing cavity and gate details, maintaining the stackup of the existing system. Heated components are replaced with standard off the shelf DME heated components.

Contact the Hot Runner Service center for an Evaluation.
